

DIVE MASTERY WEEK

WHERE DIVERS LEARN WHAT
COURSES DON'T TEACH

BUOYANCY IMPROVEMENT

We will create a program to maximize buoyancy, with experts coaching us to perform any type of advanced diving.

BREATHING AND AIR OPTIMIZATION

We will teach you expert techniques to improve your air usage even with nitrox.

PRE-LIVEABOARD

We'll give you all the tips and tricks to prepare you for your next liveaboard. If you haven't done it before, trust me, this will be very useful.

GOPRO WORKSHOP

If you bring your GoPro or small camera, we will finally teach you how to use it correctly to improve your videos or photographs like a professional.

NOV 2026

DIVE MASTERY WEEK

BREATHING AND AIR OPTIMIZATION

You may already have a scuba certification — but once you're out in the water, you'll notice that real-world diving brings challenges your course didn't fully prepare you for.

- Do you struggle with equalization?
- Do you burn through your air too quickly?
- Is your buoyancy still not where you'd like it to be?

In one of the most beautiful regions of Mexico, the Caribbean, we have the ideal dive sites to help you sharpen these skills.

With a combination of cenotes and open-water dives, you'll finish with the confidence and ability of an advanced diver — not just a certification on paper, but real-life mastery.

It will be a full 7-day experience including breakfasts, meals, accommodations, gear, and 12 dives across cenotes, Cozumel, a shipwreck, and a night dive — all focused on fun and on improving real, practical diving skills. You'll also get a GoPro course with editing training included.

DIVE MASTERY WEEK

DIVE BEYOND LIMITS IS A 7-DAY SCUBA EXPERIENCE THAT INVITES YOU TO EXPLORE THE OCEAN IN A DEEPER, MORE INTENTIONAL WAY.
